Re: FCC ID: 2AAHS-ASRC

To Whom It May Concern:

The following application is submitted on behalf of our client, Johnson Outdoors Marine Electronics, for evaluation of their model ASRC for certification under FCC Part 15.249.

The ASRC is a small, custom-built Low Energy Bluetooth Module PCBA (2402 – 2480 MHz) which will be placed inside a hand-held, coin cell battery remote control (transmitter) as well as a “dongle” (receiver) that attaches to and is powered from the Humminbird control head Accessory/GPS port located on the back of the ASRC.

The ASRC was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
